Rebuttal to the Argument Against Measure S
[250 Words Max]

We have the opportunity to see a brighter future for our students. That is why our community has a history of supporting local schools because we understand that even if you do not have school-age children, supporting quality education is a wise investment.

When you consider the FACTS, voting Yes on S is the obvious choice for our community.

- **FACT**: Good schools maintain our quality of life and protect the value of our homes. Academic research has shown that safe, updated local schools not only support student learning, but also create demand for homes and keep property values strong.

- **FACT**: By law, every penny from Measure S must stay in our community to upgrade local classrooms, labs and schools. No money can be taken away by the State.

- **FACT**: All the District’s schools were built at least 50 years ago, and some are over 96 years old. While some schools have been upgraded, many have not. Measure S will ensure all local schools meet current health and safety codes.

- **FACT**: Aging school facilities and electrical systems that predate computers simply don’t provide students with the learning environments needed to provide real world, hands-on science, technology, engineering, arts and math instruction.

- **FACT**: Measure S requires mandatory fiscal accountability. An independent citizens’ oversight committee of local residents must review the use of funds and report their findings to the community. Annual public disclosure of spending is required.

Let’s continue the progress we started. **Vote YES on S for safe, updated local schools.**
