Rebuttal to Argument in favor of Measure MM

True, 69% of HMB voted for Proposition 64. But there’s a big difference between support for simple personal/medical use, and support for manufacturing potent extracts and edibles. Recent professional polling from Emerson College Polling (NY), and Mason-Dixon Polling (IL) show that well under half of respondents support commercial pot activities, while still supporting personal/medical use. Liberal Marin County prohibits commercial cannabis except delivery. The same is true here, with most opposing commercial pot.

MM’s supporters state “Cannabis manufacturing can appear to be one of the scarier aspects of licensed cannabis activities.” We agree. Manufacturing operations are industrial processes using the flammable solvents butane and propane, which require use of blast proof rooms. Manufacturing is more appropriate in industrial parks - not in the middle of our rural town or A-1 districts next to residential neighborhoods. These highly potent extracts are very high value, and a target for robbery.

The CCC states, “Passing this measure … would support the full value chain of cannabis activities on the coast.” In other words, they want to make the Coast a destination for growing, manufacturing and selling all things cannabis – and that would change our town for the worse.

Half Moon Bay is a wonderful place to live, raise kids, and visit. Let’s not ruin the character of our local treasure by turning it into San Mateo County’s “go to” destination for the purchase of everything marijuana related. Read the experience of other states that have gone down this road [link] and join us in opposing this measure.
