By approval of this measure by at least 55 percent of the registered voters voting on the measure, the District will be authorized to issue and sell bonds of up to $7.0 million in aggregated principal at interest rates not to exceed the legal limit and to provide financing for the specific school facilities projects listed in the Bond Project List described below, subject to all the accountability requirements specified below.

ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Evaluation of Needs. The School Board has identified detailed facilities needs of the District and has determined which projects to finance from a local bond at this time. The School Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List shown below.

Independent Citizens’ Oversight Committee. The School Board shall establish an Independent Citizens’ Oversight Committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the School Board.

Performance Audits. The School Board shall conduct an annual, independent performance audit to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

Financial Audits. The School Board shall conduct an annual, independent financial audit of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this Measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the San Mateo County Treasurer, as required by the California Education Code, and (4) the Superintendent of the District shall cause an annual report to be filed with the Board of Trustees of the District not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this Measure, as required by Sections 53410 and 53411 of the Government Code.

NO TEACHER OR ADMINISTRATOR SALARIES

Proceeds from the sale of bonds authorized by this measure shall be used only for the acquisition, construction, reconstruction, rehabilitation, and/or replacement of school facilities, including the furnishing and equipping of school facilities and/or the acquisition or lease of real property for school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed project or projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The School District's proposal for the project or projects may assume the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure.

BOND PROJECT LIST

The Bond Project List shown below is a part of the ballot measure and must be reproduced in any official document required to contain the full statement of the bond measure.

Scope of Projects. Bond proceeds will be expended on the acquisition, construction, reconstruction, rehabilitation, and/or replacement of school facilities of the Bayshore Elementary School District, including furnishing and equipping. Whenever specific items are included in the following list, they are presented to provide an example and are not intended to limit the generality of the broader description of the types of authorized projects.

Each of the bond projects described in this Bond Project List include the costs of furnishing and equipping such facilities, and all costs incidental but directly related to the specific projects described above. Examples of such costs include, but are not limited to: costs of design, engineering, architect and other professional services, inspections, site preparation, utilities, landscaping, construction management and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; demolition and disposal of existing structures; rental or construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; interim classrooms and facilities for students, administrators, and school functions, including modular facilities; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; costs of the election; bond issuance costs; and project administration during the duration of such projects, as permitted by law.

The scope and nature of any of the specific projects described above may be altered by the District as required by unforeseen conditions that may arise during the course of design and construction. Demolition of existing facilities and reconstruction of
facilities scheduled identified for repair and upgrade are authorized, if the Board determines that such an approach would be more cost-effective in creating more enhanced and operationally efficient campuses. As such, this bond measure authorizes land acquisition, relocation and reconstruction, and costs relating thereto, for said reasons or based on other considerations deemed in the best interest of the District by the Board of Trustees. In addition, any project included on the project list may be undertaken as a joint use project with other public agencies or nonprofit organizations and bond funds may be used to fund the local share for any such eligible joint use projects.

Approval of the District’s bond measure does not guarantee that all of the identified projects within this Bond Project List will be funded beyond what can be completed with local funds generated by the bond measure. The District plans to pursue funds from the State of California, if available, to complete certain of the identified facilities projects.

The order in which school facilities projects are listed in the Project List does not suggest an order of priority. Project priorities will be determined by the Board of Trustees. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

2. The best estimate of the tax rate that would be required to fund this bond issue during the first fiscal year after the sale of the last series of bonds, based on estimated assessed valuations available at the time of filing of this statement, is $.03000 per $100 ($30.00 per $100,000) of assessed valuation in fiscal year 2019-20.

These estimates are based on projections derived from information obtained from official sources. The actual tax rates and the years in which they will apply may vary depending on the timing of bond sales, the amount of bonds sold at each sale and actual increases in assessed valuations. The timing of the bond sales and the amount of bonds sold at any given time will be determined by the needs of the District. Actual assessed valuations will depend upon the amount and value of taxable property within the District as determined in the assessment and the equalization process.
