TAX RATE STATEMENT
CITY OF PACIFICA
MEASURE " "

An election will be held in the City of Pacifica (the "City") on November 8, 2016 to authorize the sale of $33,500,000 of general obligation bonds of the City to finance public library improvements. If the bonds are authorized and sold, debt service thereon will be payable from the proceeds of tax levies made upon the taxable property in the City. The following information is submitted in compliance with Sections 9400-9404 of the California Elections Code.

1. The best estimate of the tax rate that would be required to fund this bond issue during the first fiscal year after the sale of the first series of bonds, based on estimated assessed valuations available at the time of filing of this statement, is $0.01784 per $100 ($17.84 per $100,000) of assessed valuation in fiscal year 2017-18.

2. The best estimate of the tax rate that would be required to fund this bond issue during the first fiscal year after the sale of the last series of bonds, based on estimated assessed valuations available at the time of filing of this statement, is $0.01784 per $100 ($17.84 per $100,000) of assessed valuation in fiscal year 2017-18.

3. The best estimate of the highest tax rate that would be required to fund this bond issue, based on estimated assessed valuations available at the time of filing this statement, is $0.01784 per $100 ($17.84 per $100,000) of assessed valuation in fiscal year 2017-18.

4. The best estimate from official sources of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is $58,435,074, ($33,500,000 of principal and $24,935,074 of interest). This estimate is based on assumptions regarding future interest rates and the term, timing, structure and amount of each series of bonds.

Voters should note that the estimated tax rates are based on the ASSESSED VALUE of taxable property on the County's official tax rolls, not on the property's market value. Property owners should consult their own property tax bills to determine their property's assessed value and any applicable tax exemptions.

Attention of all voters is also directed to the fact that the foregoing information is based upon the City's projections and estimates only, which are not binding upon the City. The actual tax rates and the years in which they will apply may vary from those presently estimated, due to variations from these estimates in the timing of bond sales, the amount of bonds sold and market interest rates at the time of each sale, and actual assessed valuations over the term of repayment of the bonds.
