The San Francisco Bay Restoration Authority was created by the State of California to fund projects to protect and restore the San Francisco Bay. The Authority does not receive any dedicated local, state or federal funding to underwrite such shoreline projects.

The Authority has placed on the ballot Measure AA, which if approved by two-thirds of the voters voting on the Measure, would assess a special parcel tax of $12 per year on each parcel of taxable real property wholly or partially within its jurisdiction, the San Francisco Bay Area comprising the Counties of Alameda, Contra Costa, Marin, Napa, San Mateo, Santa Clara, Solano and Sonoma and the City and County of San Francisco. The parcel tax would be assessed for a period of 20 years, from July 1, 2017, through June 30, 2037. According to the Measure, the parcel tax would raise approximately $25 million annually.

According to the Measure, proceeds would be used to fund shoreline projects to protect and restore San Francisco Bay for future generations by (1) reducing trash, pollution and harmful toxins; (2) improving water quality; (3) improving habitat for fish, birds and wildlife; (4) protecting communities from floods; and (5) increasing shoreline access for public enjoyment.

Projects would be prioritized based on criteria set forth in the Measure, including but not limited to, their positive impact on the San Francisco Bay as a whole, in terms of clean water, wildlife habitat, beneficial use to the residents, and ensuring projects are funded in each of the San Francisco Bay Area's nine counties. The Measure ensures allocation of 50% of the funds to the North Bay, East Bay, South Bay, and West Bay proportional to their populations, with the remaining 50% allocated to projects within the jurisdiction without regard to location.

Proceeds from the parcel tax would be used solely for the programs set forth in the Measure, would be deposited in a separate account, would be spent exclusively for projects in the nine counties comprising the Authority, and could not be taken by the State, with total administrative expenditures limited to no more than 5% of the Measure’s proceeds.

An independent, annual audit would be conducted of all proceeds and expenditures, and an annual report would be published detailing the amounts deposited and expended and the status of projects funded under the Measure.

These annual audits and reports would be submitted to an Independent Citizens Oversight Committee for review, with the committee’s findings posted on the Authority’s website.

The parcel tax would appear as a separate item on residents’ property tax bills and would be collected by tax collectors at the same time as and in the same manner as other property taxes.

A "yes" vote is a vote to approve a parcel tax of $12 per parcel on taxable parcels within the San Francisco Bay Area for a period of 20 years to fund San Francisco Bay restoration projects.

A "no" vote is a vote not to approve a parcel tax of $12 per parcel on taxable parcels within the San Francisco Bay Area for a period of 20 years to fund San Francisco Bay restoration projects.
