Argument against Measure N

The San Bruno “Downtown & Transit Corridors Economic Enhancement Initiative” is little more than a thinly veiled attempt to promote the Plan Bay Area goal of expanding areas of high density “pack and stack” housing, eroding neighbors' property values.

The Transit Corridor plan seeks to increase the number of residential units downtown—from 320 to an estimated 1,930. This housing would be built at inflated costs, and sold for exorbitant prices (as in Millbrae).

The proposed commercial developments that the plan calls for do not necessarily require a change in law to be built. The primary goal of this measure would appear to be building high density housing along the transit corridor zone.

Millbrae has a significant number of empty condominiums for sale. There are a number of San Bruno condominium units available as well, as a result of foreclosure and lack of demand. There is little evidence to suggest pent-up demand for new high density housing in San Bruno.

If the goal is to stimulate growth, simply repeal Ordinance 1284, which would lift restrictions for everyone, fairly!

The end results of approving this measure would be increased congestion, aggravated water shortages, and a decrease in the quality of life for San Bruno residents.

These transit plans seek to attract an expanded commuter population, expected to move here from outside San Bruno, with minimal benefits to existing San Bruno residents.

Existing residents would shoulder the burdens of more crowded (and costly) schools, increased residential policing costs, and infrastructure spending required to support thousands of additional people.

Please—Vote NO on the San Bruno “Downtown & Transit Corridors Economic Enhancement Initiative” Measure!
