Brisbane School District $166 Parcel Tax: Argument Against Measure L

With this latest "temporary" parcel tax, the Brisbane School District claims they need more money to continue providing quality education.

The district not only wants the 2013 parcel tax for 10 years they're already getting, they want an increase of $118 per year more for 5 years. And that's on top of 2 bond measures of $48M and $25M funded since 2010.

Have they earned this extension that will cost you $1,328 over the next 8 years (on top of the property taxes you are already paying)?

Let's look at the student test scores for Math learners attaining proficiency:

2015-16 school year results: 52% meeting proficiency.

That means 48% do NOT meet standards.

Source: California Department of Education Data Partnership

If you got 52% on a test, that would be an F grade, would it not?

Should you, the voters, reward a 48% failure rate with more money?

If no, we encourage you to vote NO on Measure L.

Brisbane School Districts' is already spending $17,019 per student compared to the statewide average of $11,431. That 49% above the average. For an average class size of 26 students, that's $442,494 per class per year.

The average salary and benefits for teachers is $92,347 per shortened work year.

Yet, they want more of your hard earned money to pad their salaries and fat pension plans.

The measure says that none of the funds will be used for administration. But, funds generated separately from this parcel tax can be used for administration expenses without limits. So, that is really an empty promise. Do not be fooled.

Tell the Brisbane School District Board to be fiscally responsible by voting NO on Measure L.

If you reward failure, you will get more failure!
